MARCH 2004: COL Thompson, USA—U.S. Army Corps of Engineers Los Angeles District

APRIL 2004: BRAC—Mr. Cassidy

MAY 2004: Scholarship Awards

President's Message

Happy Holidays to the membership of S.A.M.E.'s San Diego Post. I hope each of you had a chance to enjoy some quality time with those close to you. I'd like each of you to make a New Year's resolution to be more actively involved in your local Post activities. We've been working very hard to include current information about our members and their efforts on behalf of the nation and the San Diego community. If you are a member and wish to be recognized for community involvement, send a 100 word article and some pictures to our Programs Director, Commander Pat Rios at jorge.rios@navy.mil or call him at (619) 532-1693. Let's show the engineering community what we are doing to make Southern

California a better place to live!

I'd like to thank our December speaker, Rear Admiral Chuck Kubic, CEC, U.S. Navy, Commander of the First Naval Construction Division. He gave us a riveting presentation on engineer operations supporting the First Marine Expeditionary Force (I MEF) during OPERATION IRAQI FREEDOM. Many thanks Admiral for taking the time out of your busy schedule to "drop in" and speak to us. December was also "Toys For Tots" month. Thanks to all of you that contributed new, unwrapped children's toys to the Marines for their effort to bring a little holiday joy to less fortunate children. Thanks also go to the 4th Tank Battalion for taking the time to manage this worthy program and join our Post for the Holidays.

Our January speaker is no stranger to our Post. We will be hosting SANDAG's Communication Director, Mr. Garry Bonelli for a discussion on the Mobility 2030 Plan prepared by SANDAG. Garry will be covering this \$42 billion initiative to integrate our freeways with state of the art transit systems and to create a truly regional road network. Please join us at 1130 on January 14th, 2004 at the Holiday Inn on the Bay for what should be an extremely enlightening briefing.

On behalf of the San Diego Post, let me be the first to wish you a happy and healthy New Year. I look forward to seeing you on January 14th!

John Moossazadeh
Post President

Scholarship 2004 Campaign!

The San Diego Post is beginning a campaign to raise funds to enhance the Post's Scholarship Trust, which was started in 2000 using the proceeds of sponsoring the National Conference. In 2003, we awarded five \$2,000 scholarships to worthy students and would like to increase this amount to account for climbing tuition costs. To accomplish this, your help is sought! ***Firms donating \$5,000 will have a named scholarship for 3 years.*** Please join us in this worthy endeavor to encourage applicants to the engineering and architecture fields.

Small Business Outreach

As part of the SAME Small Business (SB) Outreach effort, the San Diego Post will provide SB members a table display area during the monthly Post meetings. SB SAME members will be encouraged to use the table to display their marketing information including relevant company brochures, flyers, and business cards. The display will unite both small and large engineering businesses serving the military. The purpose of the Small Business Outreach initiative is to "garner post level support for small business" and to "create a pipeline to ensure we are serving our small business members".

Thank You Scholarship Benefactors!

Please join us in thanking our most recent scholarship contributors for their generosity!
